

Optimal patient outcomes

Stellan

Vistafix ear prosthesis user,
Sweden

Hear now. And always

Cochlear™ Vistafix® 3 System* has been specifically designed to improve the outcome of facial prosthetics, enabling patients to return to an active lifestyle, with renewed confidence and improved quality of life. With significantly improved implant performance and an implant designed for greater predictability in more demanding clinical situations (compared with the previous generation of machined surface Brånemark implant), the Vistafix 3 System provides state-of-the-art clinical results. Contact your Cochlear representative for further information or visit our website: www.vistafix.de

* The Vistafix 3 System consists of:
Cochlear Vistafix VXI300 Implant (Vistafix 3 Implant)
Cochlear Vistafix VXA300 Abutment (Vistafix 3 Abutment)
Cochlear and the elliptical logo are trademarks of Cochlear Limited.
Vistafix is a registered trademark of Cochlear Bone Anchored Solutions AB. N35769F ISS2 JUN12
